

Kudos Louvres By Stratco

Aluminium Opening Roofs

Manufactured in New Zealand experience the impressive architectural, aluminium open roof system by Kudos, boasting durability and effortless operation to enjoy time outside all year round.

Design And Installation

Stratco Authorised Dealers oversee the entire installation journey, from meticulous design and detailed drawings to seamless council applications and installation, backed by Stratco's one-year installation warranty. Connect with us today to schedule a consultation and discover how we can bring your outdoor living space to life.

Engineered Excellence

Each Kudos open roof louvre system undergoes rigorous engineering and independent certification, to meet council and planning requirements.

Peace Of Mind Guaranteed

With Kudos Louvres by Stratco, rest assured knowing that all components are designed and manufactured in-house, accompanied by an industry-leading 15-year structural warranty (conditions apply).

Built To Last

Stratco offers an 10-year paint finish warranty, with an option for a 'Severe Environment' powder coating for coastal locations, providing a 10-year paint warranty finish when positioned no closer than 50m from breaking surf (conditions apply). The louvre motor is also covered by a 5-year product warranty for total peace of mind.

Versatile For Commercial And Residential Spaces

Ideal for both domestic and commercial projects, Kudos Louvres by Stratco offer expansive span capabilities, creating customisable entertainment zones for homes, restaurants, hotels, and apartments.

Kudos Louvres By Stratco.

All Season Outdoor Living

Kudos Louvres by Stratco provide the perfect all season outdoor living space. Offering ultimate sunlight and weather control from blocking the harsh summer rays, welcoming the warming winter sun, you have complete control.

Stunning architectural appeal provides the perfect setting for gatherings or solitary relaxation. Create space that reflects your unique style embracing the beauty of the outdoors year-round, protected from the elements yet connected to the great outdoors.

Our premium louvres offer longevity, versatility, and style. Our innovative designs transform any space into a comfortable oasis. High-quality customer satisfaction are our priorities which means our louvres exceed expectations.

All Season Weather Control

Kudos Louvres' opening roofs are a premium product crafted from high-quality aluminium, these opening roofs are durable and built to withstand the elements.

These innovative roofs can be operated manually or with the touch of a button, offering a versatile solution to protect outdoor areas from the sun, wind, and rain. With the ability to enclose an outdoor area, Kudos Louvres' opening roofs make it possible to enjoy time outside all year round.

LED Lighting

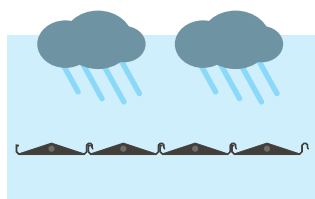

The Kudos Louvres LED lighting system is an energy-efficient and flexible option that complements our louvred roof choices. It creates a stunning outdoor living space with custom light designs that are easy to install and low maintenance.

Rain Sensor

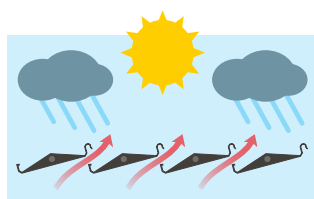

The louvre system has an in-built rain sensor that will automatically close the blades if rain is detected (motorised units only).

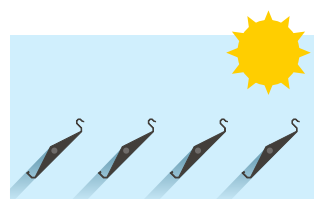

Electronically Controlled Louvres

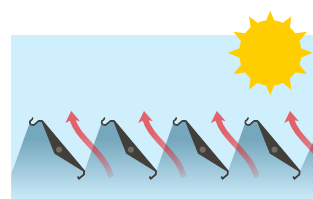

Closed for rain protection

Ventilation with rain protection

Alfresco Living Redefined.

Kudos Louvres by Stratco deliver design and build options to complete the perfect outdoor living space for your home or business.

Opening Roof Blade Options:

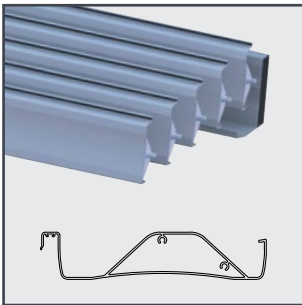

Delta Flat / HD

Delta with a flat bottom available in Standard and HD, in effect the best of the Delta and Titan combined, a seamless ceiling and greater spans.

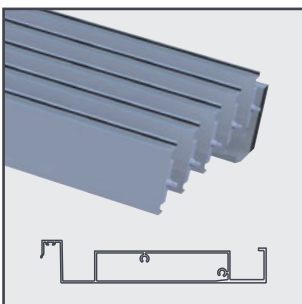

Delta Curved

Elegance with extraordinary strength and spanning capability. The scalloped profile underneath creates a visually shimmering roof plane overhead.

Titan

A contemporary linear opening louvre roof profile which creates a perfectly flat roof plane overhead.

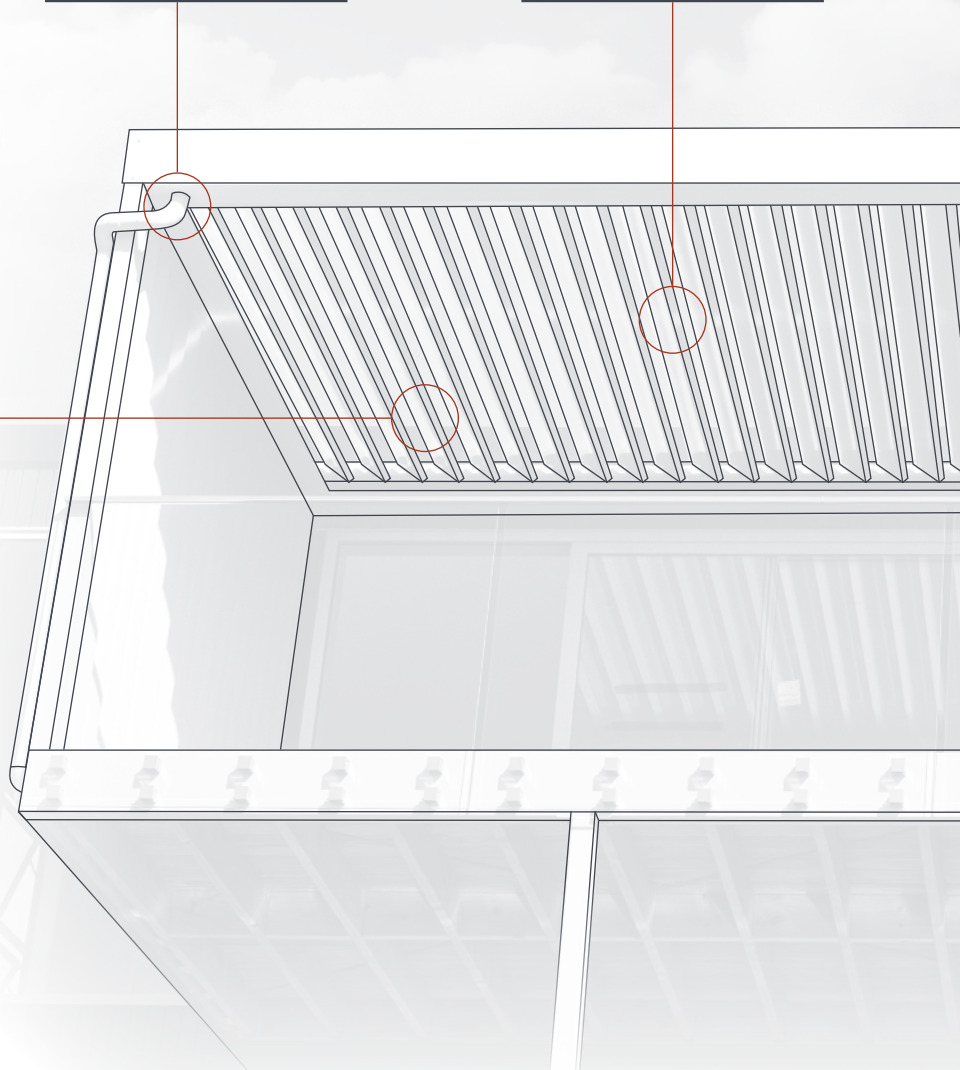

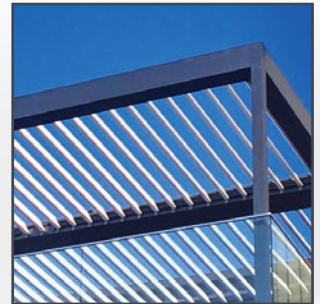

Rain protection

Designed to manage weather. Kudos panels have deep side channels directing water flow into angled gutters flowing out through downpipes. Automatic rain sensors close all louvres at the first sign of rain.

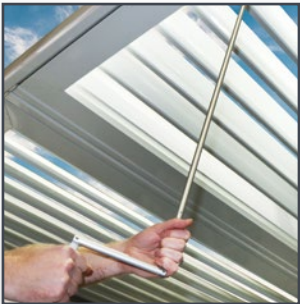

Manage The Elements

Louvres offer up to 165° rotation. Manage ventilation and sun, angle toward the prevailing breeze to push air in and down, or angle away from the breeze to allow fresh air circulation.

Motorised Or Manual

You can manage your space adjusting the level of sunlight, shade and wind via motorised system using a hand held remote or you can select a manual crank option.

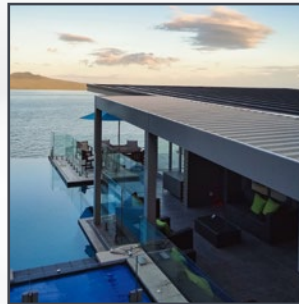

Customisable Spans

Louvres have long span widths to manage any design type domestic or commercial.

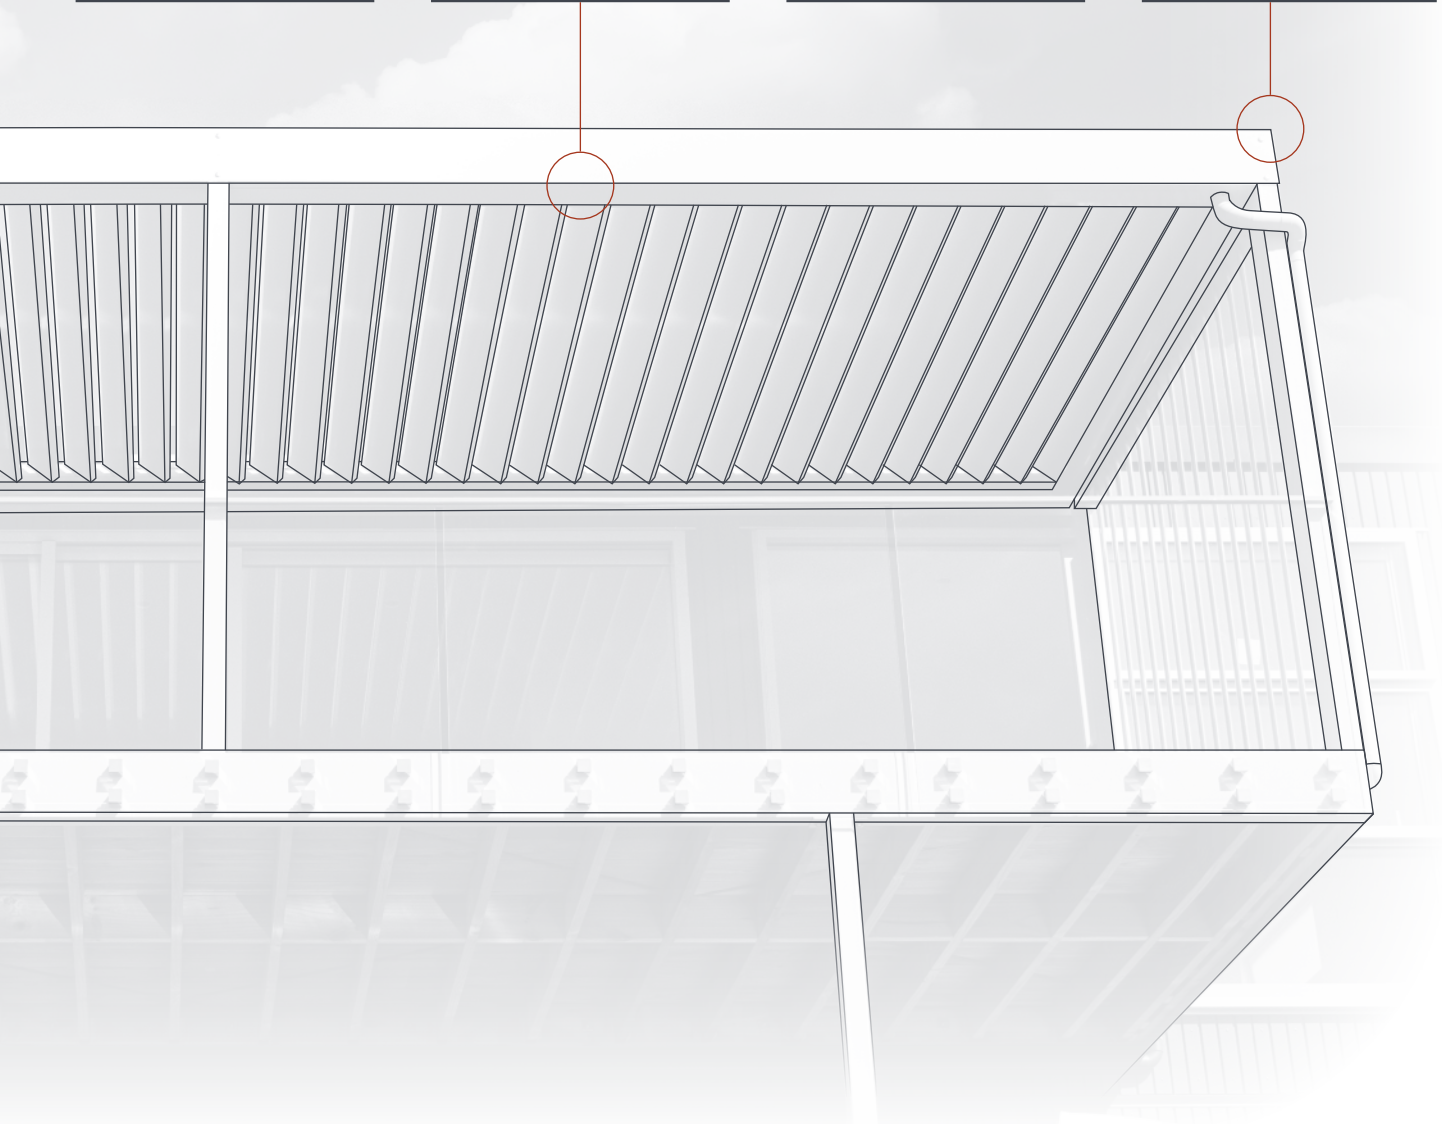

Performance

Designed using aluminium and stainless steel components providing durability particularly in coastal locations.

Colour Protection

Long lasting colour performance with up to 10-year warranty in coastal locations.
